- SPRING 2023 — BASEBALL: Group 4 South Sectional Champions
- SPRING 2023 — GIRLS TRACK & FIELD: Group 4 South Sectional Champions
- SPRING 2023 — BOYS LACROSSE: Olympic Conference American Division Champions

## A Curriculum for Excellence

The curriculum at Eastern Regional is designed to provide sufficient flexibility for each student's program of studies to be determined by the abilities, interests and needs of the student. There are extensive offerings of college preparatory courses at different levels of difficulty along with courses in the Fine, Practical, and Performing Arts, Business Education, Computer Education, and Remedial and Special Education.

Certain subjects are required at each grade level in accordance with state and local Board of Education requirements as well as their fundamental importance to educational goals.

## Grading Scale

A = 92-100    B = 83-91    C = 74-82    D = 65-73    F = 64 and below

## Class Ranking System

There are two class ranking systems, an equal and a weighted scale. We do not report class rank.

The weighted system will only consider courses that are from the academic disciplines of English, World Language, Mathematics, Science, Social Studies, plus Gifted/ Talented Seminar, and all Honors and Advanced Placement Courses.

## Ranking Systems

**A. Equal Rank** – All courses are given equal weight and value (This is in effect for ALL students). Every course a student takes and the grade in the course is included in determining grade point average and class rank. This includes courses that are repeated to make up a failure or to improve a grade. Courses taken through a college or university will not be included in this ranking system. This ranking procedure treats all courses equally in value regardless of academic challenge or academic difficulty.

**For GPA Calculations:** Multiply the final numeric grade by the credit value of each course divided by the total credits attempted.

**B. Weighted System** – Only subjects in the five traditional areas of English, World Language, Mathematics, Science, Social Studies plus Gifted/Talented Seminar, Advanced Placement and all other courses designated as Honors courses are included in this ranking system.

This includes courses in those subjects that are repeated to make up a failure or to improve a grade. Courses taken through a college or university will not be included in this ranking system. Each subject is assigned a numerical value, according to its "academic challenge," which determines the number of points added to the final grade for the course. The adjusted final grade is then multiplied by the number of credits earned. The product of this process is then divided by the total academic course credits attempted.

Points Added to Final Grade	Value 1 Advanced Placement	Value 2 Honors	Value 3 Accelerated	Value 4 Standard Placement
	10	6	3	0
